Student Code of Conduct - School Charter 2015

The Student Code of Conduct for Roslyn Primary School has been formulated within the Department of Education and Early Childhood Development guidelines and regulations. Roslyn Primary School has a consistent and positive approach to student behaviour. This approach fosters a school environment where personal responsibility and self-discipline are developed.

The Code of Conduct is based on the following principles:

- All students have the right to be safe
- All students should be encouraged to be polite, courteous and well mannered
- All students have the right to work and play without harassment or interference
- Each student has the right to be considered a valuable and worthwhile member of the school community, whose individual needs are respected
- All students will be encouraged to demonstrate pride in their school and surrounds
- Students are expected to behave appropriately to enable teachers to teach in an atmosphere of order and cooperation
- Students shall expect that the code of Conduct is implemented by the principal and staff fairly, reasonably and consistently.

There are five basic school rules
1. Students should move and play safely
2. Students should care for themselves, others and for property
3. Problems should be resolved calmly, sensibly and with fairness
4. Students should respect others through their speech, manners and actions
5. Students should work to achieve their best and allow others to do their best.

Breaches of the school rules may incur consequences. The consequences will be a logical response to the offending behaviour/s. Serious and continual breaches of school rules may lead to suspension or expulsion procedures in line with Departmental guidelines. Children and parents are made aware of the behaviours that may lead to a demerit or detention consequence. A support or behaviour contract may be issued to certain students. Staff will be encouraged to recognise and acknowledge positive student behaviour. The implementation of “You Can Do It”, Restorative Practices and “Values Education” are programs used to develop, promote and encourage positive student behaviour.

This code also acknowledges the Racial and Religious Tolerance Act 2001 which supports tolerance and prohibits vilification on the grounds of race and religion.

PLEASE DISCUSS THIS “CODE” WITH YOUR CHILDREN. THANK YOU
