REPORTING POLICY

Purpose:
Accurate and comprehensive reporting of school and student performance aids in establishing open communication, helps to improve student learning, assists in establishing future direction, and helps to identify areas of exemplary performance, as well as those in need of support and assistance.

Broad Guidelines:
To report school and student performance accurately and comprehensively.
To improve student learning by accurately determining areas of future need, as well as areas of current exemplary performance.

Implementation:
Schools are responsible for accurately reporting student achievement against the Australian Essential Learning Standards (AUSVELS) to the students themselves, to parents, other teachers and schools, to School Council, and to the Department of Education and Training (DET).
Each year our school will provide parents with two written Student Reports indicating their child’s academic progress against AUSVELS standards and progression points. Where necessary, translations into other languages will be provided.
The Student Report Cards will include assessments against state-wide academic standards, an indication of strengths and areas requiring additional assistance, suggestions for support and extension strategies, areas beyond the AUSVELS (including attitude, participation, extra-curricular activities, social skills), and a student self-assessment.
Staff will participate in moderation professional development involving assessment maps and annotated work samples so that staff can apply consistent judgements of student progress against AUSVELS standards across the school.
We will provide one formal parent/teacher interviews per year – one interview after the mid-year reports are distributed. Where necessary, interpreters will be provided.
Our school will progressively develop learning improvement plans for individual students in consultation with parents and, where appropriate, with others with specific expertise.
We will participate in the NAPLAN so as to gain information for staff, parents and students on students’ progress in relation to the AUSVELS levels.
We will provide in-services for parents on AUSVELS.
The schools will assess the achievements of students with disabilities and impairments in the context of the AUSVELS. Program support groups will help develop individual student profiles containing learning goals in each key learning area for each student. Progress towards learning goals will be reviewed and reported by the program support group.
The school will provide all required performance data to DET and the community by means of an annual report.
Students for whom English is a second language will have their progress in English reported against the EAL Companion to the AUSVELS where appropriate.

Evaluation:
This policy will be reviewed as part of the school’s three-year review cycle, or at any time that DET policy changes influence reporting practices in schools.
